Community manager and product builder in the Aptos ecosystem.

In crypto since early 2021. I turn ideas into games and tools for crypto communities: I shape the design, test every build, launch on X and grow the community around each one.

Winners announced; Stacktos launches

PROJECTS

Decicat: A Decibel Adventure

GAME · LAUNCHED OCT 9, 2026, ON X

A one-touch pixel-art runner for the Decibel community that plays in the browser and right inside posts on X.

Role Built from an original concept by @doncastro. Design direction, testing, launch on X and community, including a Decibel community contest with @doncastro (ended Oct 15, 2026).

- 453 players (as of Oct 15, 2026)
- 6,000+ ranked runs (as of Oct 18, 2026)
- About 314 runs in the first 2 hours
- Top score 140,711 by LANGmay
- 15+ players posted their own runs on X (Oct 10-15, 2026)

Stacktos: Aptor's Ascent

GAME · LAUNCHED OCT 16, 2026

A one-tap tower climber where every block is a real, recent Aptos mainnet transaction, with an Aptos tip between runs.

Role Concept, design and art direction, testing and launch.

- 6 zones to the summit
- 50 Aptos tips, each with a source
- 8 original music tracks
- Just launched: no player numbers yet

Tracktos: Aptos, made visible

WEB APP · RELAUNCHED OCT 14, 2026

A friendly window into Aptos: see who a wallet moves value with, where a token is flowing, its largest holders, and mainnet live.

Role Concept, design direction, testing on mainnet and testnet, and the relaunch.

- 8 views: Move Map, Token Flow, Holders, Watchlist, Pulse, Network, Wallet, Decibel
- Mainnet and testnet
- Relaunch post: 100,005 impressions, 77 likes (as of Oct 17, 2026)

ACID: Aptos Community Intelligence Dashboard

INTERNAL TOOL · PRIVATE, SIGN-IN RESTRICTED

A console for community teams that turns the public conversation about Aptos on X into sentiment, narrative and risk insights, with weekly executive reports.

Role Concept, defining what it answers for a community team, design direction and testing.

Showcase: github.com/angel-andre/acid-showcase

Every figure shows its date. Decicat figures come from the game's public leaderboard and published results. Ranked runs are rounded down; the live count keeps growing. X figures as of Oct 17, 2026. Oct 13: ranked runs from the scoreboard; runs in all also counts short runs too brief to rank. Other timeline figures are as stated on that date.
